SKILLS AND EXPERTISE

- Operating Systems Proficiency: Architecture, processes, threads, memory management, schedulers, and CPU optimization
- Networking and Routing: TCP/IP, UDP, VLAN, NAT
- Real-Time Systems and Critical Priorities: Task scheduling and performance optimization
- System and Network Security: Linux/Windows hardening, firewalls, VPN, filtering, and intrusion detection
- Wireless Sensor Networks (WSN) / IoT Administration: Data collection, transmission, and power optimization
- Programming Languages and Development Tools: C, C++, Python, Java, SQL, Assembly
- Smart Card Programming: Java Card, embedded security, and cryptography
- CTF (Capture The Flag): Solving cybersecurity and cryptography challenges
- Team Collaboration on Complex Projects: Coordination with engineers, task allocation, and deliverable tracking

LANGUAGES

- English (Upper-Intermediate)
- French (Advanced)
- Arabic (Full Professional Proficiency)

ABOUT ME

Second-year Master's Student in Computer Systems, with expertise in distributed systems, network and system security, and infrastructure administration. Proven ability to work effectively within teams on complex technical projects, with a strong commitment to continuous learning and professional growth.

PROFESSIONAL EXPERIENCE

Part-time Employment:

Information Technology Officer at EGTPH TCE AIT HADDA RACHID, Tizi-Ouzou, Algeria | 2022 - Present

- Management and maintenance of the company's IT systems
- Technical support to ensure the proper functioning of hardware and software
- Troubleshooting, installation, and optimization of IT equipment
